

Patient information

Cardiac Care Centre

Direct contact: 01284 713352 or 01284 713332

Visiting times: Afternoon from 2.00pm to 5.00pm
Evening from 7.00pm to 8.00pm

The Cardiac Care Centre is comprised of:

- **Cardiac care unit:** These beds are designated for adult patients with acute cardiac issues, who require close monitoring. Once a patient's condition improves they are likely to be moved to the ward area. The unit has seven beds (four beds in the bay and three side rooms). The beds in the bay are used by both male and female patients (mixed sex).
- **Cardiac ward:** The inpatient ward cares for adult patients with heart or other medical problems. The area has 15 beds: five beds per bay with a toilet and shower for each bay.

Visiting times

Should you need to visit outside the above hours or have any questions, please speak to the senior nurse on duty, we are always here to help.

Visitors are restricted to two at a time and we ask that no-one under 12 years of age visits the ward.

Visitors are politely reminded not to sit on the beds but use the plastic chairs provided throughout the ward.

Unfortunately we cannot accept flowers on the ward.
